**Literacy and Numeracy Tutoring Program**

We are currently seeking expressions of interest from parents who are interested in their child enrolling in a literacy and numeracy tutoring program. The program is designed to enhance classroom instruction for students who require further support or extension. It gives them the opportunity to develop areas of weakness that may be impeding their progress.

Fully qualified teachers will tutor small groups of students for one hour, after school. The groups will be limited to a minimum of 3 and maximum of 5 to ensure that the children receive individual support. This service will attract a fee of $35.00 per session to cover costs of running the programs and will run for 8 week each term. The payment will cover tutor costs, materials and resources. The program will be available for students from years 3 to 6.

Before the program can commence we need to establish that there are enough parents interested in enrolling their child / children. If you are interested in enrolling your child / children into either one or both of the programs, please complete below and return to the office by Monday 4th March.
